**Area 01**

The 10-ft. square capstone opens above a hemispherical chamber 20 feet across, the floor 20 feet below. Standing on the capstone and stating the name of any earth deity is enough to send the speaker to an identical slab in the middle of the chamber floor - a DC 18 Intelligence (Religion) check discovers this. Otherwise the party needs to find another way to reach the sand below.

Both doors out from here are locked: the west door needs a DC 20 Dexterity check (with thieves' tools) or the key in Area 7 to open it (the east door's check is DC 22 or the key in Area 9). Failure to open either lock sets off a collapsing roof trap above the relevant doorway.

The corridor's ceiling at the top of the north stairs is 35 feet high. There are signs of a devastating blast of arcane energy, and the walls at the T-junction are still glowing from the released magic. The four 3-ft. squares in the middle of the junction each have the equivalent of a fire-breathing statue trap on them thanks to the lingering magical power.

Izzy is a cuck. This is a true classic, if you ask me. Heck, I played this so much when I had a Wii. Even saw the first movie.. spent my time jumping from a prone position and spinnin round like a helicopter bought to♥♥♥♥♥♥♥♥♥♥take off, shankin skeletons, gettin shanked by skeletons, wailing on some deers legs, un sheating and sheathing while holdin nothing and stabbin me mate, yeh had a nice time mate  
thicc/10. This robot is unreasonably cute.

Also the came controls well, has distinctive and pleasant visuals, and satisfying explosions.. I was totally addicted to this game for a few days.. Beat this game in 2 hours. It's a fun little romp and I got it for 66% off from a steam badge otherwise I'd have never found it. Some levels are much more challenging than others. I probably spent 30 minutes on the last level alone. Fun little pick up for a time waster and easy 100% for achievements.

I did notice some hitbox issues on levels with more things going on. Plenty attempts I died to cannon shots that didn't hit me. They're slight and don't keep you from being able to complete the game. Still quite fun to test your patience and peripheral vision. If you can keep track of more than 5 things going at once you won't have any problem beating this thing.. This game is pretty wonderful but if the game was more "lineer", I'd love it more.. Real nice game GG 10/10

It's a cool and interesting game with a neat and fitting soundtrack. There's some frustration and difficulty to it that adds to the tense and sometimes abrasive atmosphere to make for a pleasantly unsettling, uncomfortable experience. Well worth a couple of hours of time as a silly and fun little thing to experience.. It's weird how this DLC with these gorry kills came on the 1st of June which ironically in my country is Children's day.(P.S I love these kills). only just started but great game, easy to pick up anyone with Fifa or Madden experience could pick this up quickly.. Hosted by Schmittty, one of the better hosts of the series. Based on the YDKJ 2 engine with some very inspired new assets.. A fun concoction of Capitalism3 x Tropico set in middle east!

At first i was pretty skeptical at the look of things and it seemed slightly shallow, but as i played the depth of gameplay was slowly unraveled. Its simplified, but actually very fun and rewarding. Plenty of valid playstyles by the looks of it, somewhat randomised starting conditions for assuring of the replay value, aswell as rewards for previously 'won' games.

Some thing are not clear to me, like i was never able to ' win ' a speech, even tho those were the actual things my country needed the most. There is 1 resource lacking in gameplay by the looks of it ( in one game start i didnt have anyone selling precious metals). Cant seem to interact with UN either. I probably just missed something or didnt play enough.

This genuinely feels like a pretty damn fun game for people who enjoy this kinda thing, - sitting in an office, managing the country. Im just getting started with this one but i already want to see more from these developers. There are far too few good games like this to pass this one.

. this game is so cute and fun! love chibi games. can friendly community of players. Beautiful map. Very fun and plenty of interesting challenges to complete. Little more tricky than previous episodes although this game is essentially trial and error anyway. It's worth the investment.. This is just the same as the other LUXOR games but i have to say i do not reccomed this game, it hurts my eyes the light colours move and make me see trails of luminous colours where there is nothing to see, it need to be solid coours in my opion other people may like this because of the unique game it creates but for me i hve to say avoid, especially if you do have issues with bright colour hurting your eyes, the game its self follows suit off all the others so if you plaed luxor and you want to give this a shot hey it up to you, i find if you dont have fun with a gme there just not point in playing it.
